To access PELICAN from a remote site, the following direct link appears to speed up the process:

The following will appear:

For User name, type in: lsumc-master\(your LSU login). For example, I would type lsumc-master\bbarro. Type your LSU password as usual.

This quickly brings you to the next screen:

Click on the PELICAN symbol, and proceed as usual with the subsequent login. (This step may take a moment, and appears to require some Citrix software installation the first time, for which you will be prompted.)
